

## **Quality Policy**

Acu-Cast Technologies. LLC. is dedicated in our quest to provide our customers with the best quality prototypes and short run aluminum and zinc simulated die castings and urethane simulated injection mold castings possible. We strive toward continuous improvement in quality and productivity in order to maintain our goal of producing the best quality prototype castings available. Every member of Acu-Cast team recognizes that by communicating effectively and working together we can meet our yearly goals and provide quality products and services to our customers.
